BIKE PARKING, BEHAVIOUR
& HOW TO MINIMIZE
BIKE/SCOOTER THEFT

1

THEFT

2

ACCESSIBILITY

3

BEHAVIOUR

1

Solution - Theft

A bike gets stolen on average 1 every 6 minutes. Accessibility to infrastructure and changing behaviours.

2

Solution - Accessibility

Using Bike Parking to minimize bike theft. Accessible infrastructure and measures to minimize bike theft.

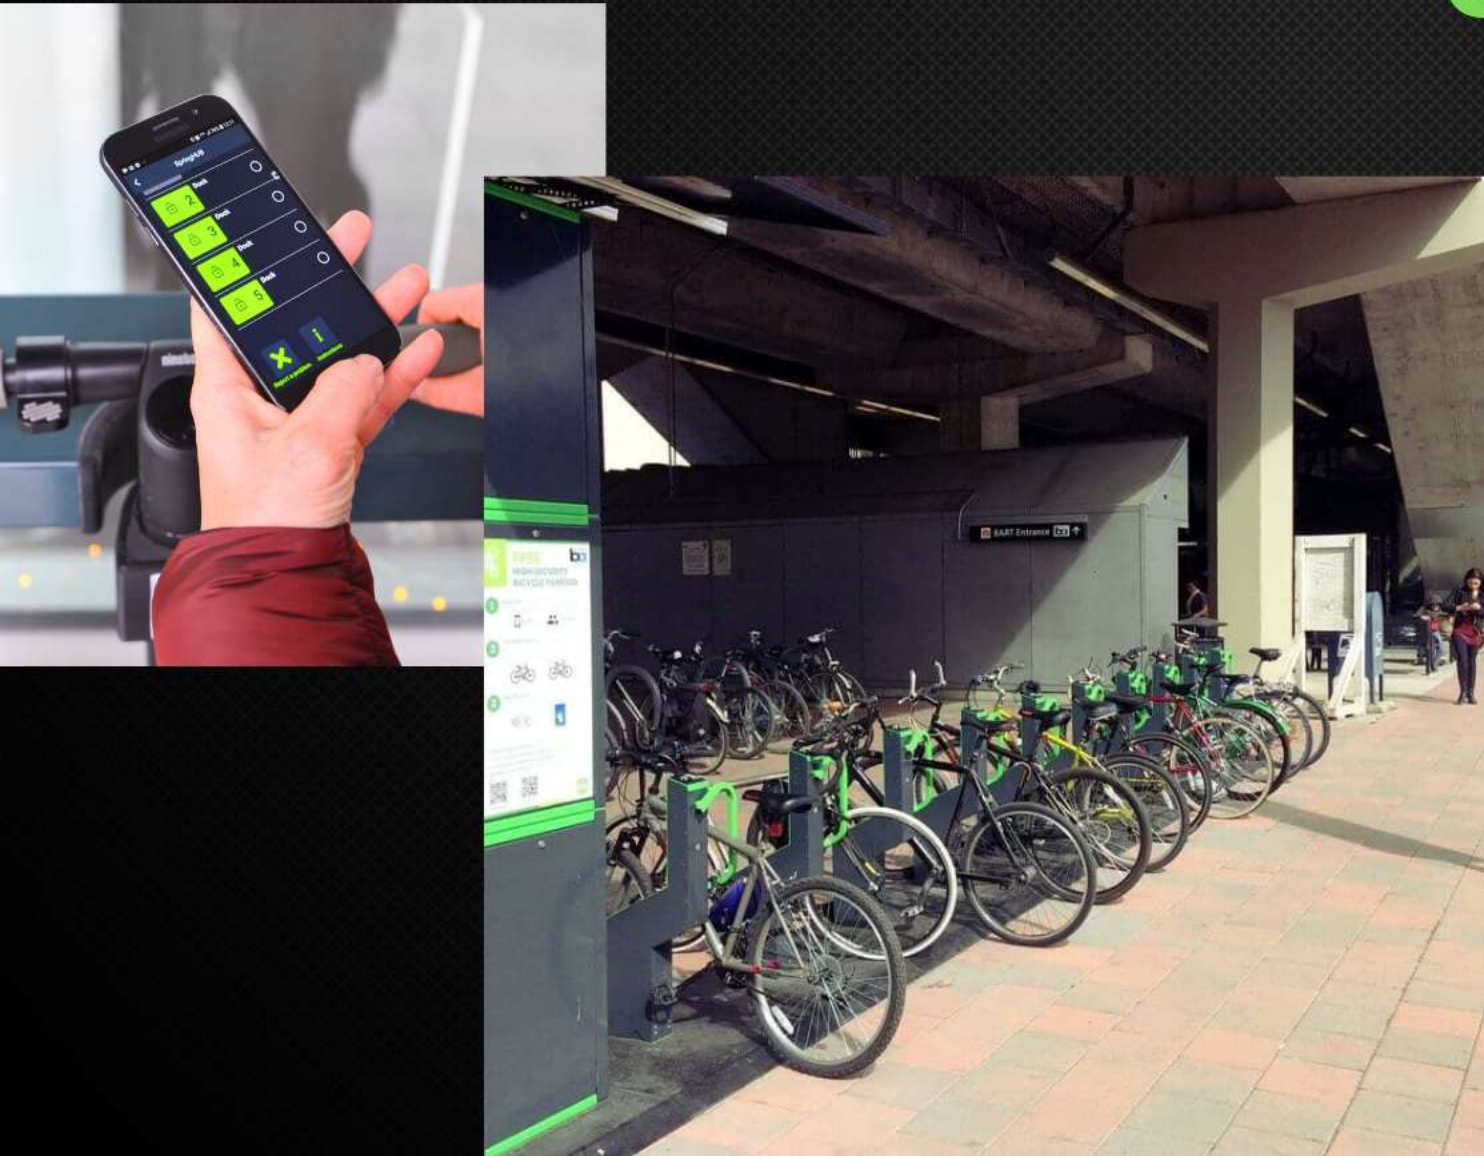

3

Solution - Behaviour

Educating the end user to use bike parking to move on bike theft in prone areas

Strategy

Secure Bike Parking

App Based Control and Notifications

Decrease Bike Theft within the area

Anti Theft Alarms

Active Transportation Strategies

Micro Mobility Theft will decrease with infrastructure being introduced within our urban planning development. We are already seeing developers, government org. and schools test this and are seeing positive results.
