## Vision

We're calling for safe, healthy, people-friendly, climate-friendly streets in New South Wales

- **Safe streets** – with safe space to walk, cycle and cross on busy roads and quiet, low-traffic streets in neighbourhoods
  - **Healthy streets** – where walking, wheeling, or riding is the natural choice for short journeys, children can play, get physical, and move easily outdoors and infrastructure is provided equitably
  - **People-friendly streets** – with lots of plants and seating, and where motor traffic doesn't dominate – especially in town centres
  - **Climate-friendly streets** – that promotes the growth of zero-carbon shared mobility options so that all residents have suitable, sustainable, transport choices on their doorsteps.
-
